57 SPECIAL MENTIONS

EXCERPTS FROM THE E17 COMPETITION RULES – INTERNAL EUROPAN COMPETITIONS PROCEDURES

1.2 JURIES

1.2.2. Working Methods and Evaluation Criteria

The jury's decisions are final in compliance with the European rules. Before beginning to work the jury receives recommendations from the European Association.

The jury meets in 2 separate sessions at different times:

First round – At the beginning of this session, the jury appoints one of its members as chairman and agrees on its working method. Sites representatives can be integrated to this jury level and, in some countries, may participate to the selection of the shortlisted projects.

The jury then studies the projects that do not comply with the rules and decide whether or not to disqualify them.

It later on assesses the projects on their conceptual content and the degree of innovation according to the European 17 topic and shortlists around 25% maximum of the submitted projects or at least 3.

Second round – During the second round, the jury examines –on its own and independently– the shortlisted projects and points out the winners, runners-up and special mentions. The jury could assess the projects on basis of:

- The relevance of the answers given by the project to the questions raised by the theme “Living Cities”;
- The ability of the project to connect territory scale (urban, suburban, rural...) to proximity scale of the places, by crossing landscape, urban and architecture;
- The relationship between the ideas of the project and the site's context;
- The care with which natural local resources, climatic changes and risks and inhabited milieu are taken into account;
- the relevance of the program proposed on the mixity, inclusivity and evolutions of uses, in regard to the brief demands;
- The potentiality of integration into a complex urban process including actors;

The jury finally writes a report giving the reasons for the choice made in relation to the requirements of the competition and the concerned sites.

Each country's budget includes the equivalent of a [Winner's](#) and a [Runner-Up's](#) prize per site. Still, each entry is judged on its sole merits. The jury can therefore distribute prizes among entries up to its will or decide not to award all the prizes. In this case, the reasons shall be made public.

If disqualified after validation of participation a prize-winning project may be replaced by another project if the quality is satisfactory.
